**Violence Interruption Project - Community Violence Reduction Program (American Rescue Plan Act)  
Position Description – Program Manager of Violence Interruption**

**(1) Project/Program Background**

The funds used to support this position through the Indy Public Safety Foundation (IPSF) as part of the City of Indianapolis’s Community Violence Reduction Program (“Program”) are derived from the City’s allocation out of the Coronavirus Local Fiscal Recovery Fund, CFDA No. 21.027, created by Section 9901 of the American Rescue Plan Act, Pub. L. No. 117-2 (March 11, 2021) (the “Act”). The Act requires that the payments from the Coronavirus Local Fiscal Recovery Fund only be used to cover cost incurred: (1) to respond to the public health emergency with respect to the COVID-19 or its negative economic impacts; (2) to respond to workers performing essential work during the COVID-19 public health emergency by providing premium pay to eligible works or providing grants to eligible workers who perform essential work; (3) to enable replacement of government revenues reduced due to the COVID-19 public health emergency; or (4) to make necessary investments in water, sewer, or broadband infrastructure. Interim final guidance issued by the Department of the Treasury states that the City may use funds from the Act to facilitate access to resources that improve health outcomes, including services that connect residents with health care resources and public assistance programs and build healthier environments; specifically, one such eligible use of funds is for “[e]vidence-based community violence intervention programs to prevent violence and mitigate the increase in violence during the pandemic.”<sup>1</sup>

Since the onset of the COVID-19 pandemic in early 2020, violent crime has increased. Data gathered by the National Commission on COVID-19 and Criminal Justice show that in 34 large American cities, homicides rose by approximately 30% between 2019 and 2020.<sup>2</sup> Indianapolis was no exception: it suffered a record 214 criminal homicides in 2020, which represents a 39% increase over 2019’s figure.<sup>3</sup> Through the first ten months of 2021, the rate of homicides in Indianapolis has exceeded 2020’s elevated pace; as of early November 2021 has already surpassed the City’s all-time homicide record. While the causes of this increase in violence are multifactorial, the COVID-19 pandemic has undoubtedly contributed. COVID-19 had a disparate impact on already-vulnerable populations, and exacerbated underlying economic, emotional, and mental stress.<sup>4</sup>

**(2) Position Description and Requirements**

For the Indy Public Safety Foundation (IPSF) Violence Interruption Project, which operates in partnership with the Program and with the City’s Office of Public Health and Safety, the position of Program Manager of Violence Interruption will be created to:

- Oversee program personnel, including violence interrupters, outreach workers and/or life coaches;
- Provide reports as requested to Program Director and IPSF leadership;
- Manage day-to-day operations of personnel and program; and
- Support connected work of the Indy Public Safety Foundation within the scope of the Program.

The Program Manager is always expected to work enthusiastically and professionally.
